

Course Markings

The following course markings are used for the *Kickstarters Gascoyne Dash*®

<p>Direction Arrow: Indicate the direction of the competition course. All direction arrows are red on a white background.</p> 	<p>"Pre-Danger" Sign: Indicate a "Danger" sign ahead. "Pre-danger" signs take the form of a red dot, at least 150mm diameter, on a white square background. They are positioned one on each side of the course, so that they provide adequate warning for vehicles travelling at competition speeds (between 50m to 100m) to slow sufficiently and traverse the hazard safely.</p> 
<p>"Danger" Sign: Indicate a hazard likely to require significantly more than usual care to traverse safely. They are a vivid red square, one on each side of the course, placed at the hazard.</p> 	<p>"Caution" Sign: To indicate hazards which warrant additional care in traversing, but which are not sufficiently severe to warrant the use of "Danger" signs. They are the form of a red triangle, with 300 mm sides, on a white background. They are placed at the hazard in question, one on each side of the course.</p> 
<p>"No Road" Sign: To indicate a road/track/etc which is not part of the competition course. They take the form of a black "X" on an orange background, and are to be placed along the relevant side so they can be seen as early as possible by Competitors on the course.</p> 	<p>Braking Markers: optional, to be placed at the end of a straight to indicate the approach of a corner or other obstacle which may require braking to negotiate. 100, 200 and 300 metre markers will be placed at the appropriate intervals preceding the obstacle. Signs shall be black on white, with the number to be at least 300mm long, and 150mm high, on a mounting board at least 450 x 225mm.</p>
